FOREWORD

The Iris offered herein are all big, strong, healthy Rhyzomes; young stock, grown here on our 73-acre farm. Most of them will bloom for you next spring. We guarantee all our Iris true to name, and can, because we grow them. They are dug fresh for every order. So please do not compare our plants with those offered by department stores, who do not grow Iris, and frequently offer stock surplus of some grower going out of business. They can't guarantee them and you have no comeback. So why buy a cat in the bag and call it a bargain? Since our last list we have added several of the new worthwhile creations at prices every Iris lover can afford. These have all been tested in our gardens before offering them to you. We have many other varieties—some new seedlings of our own hybridizing and some by others—that we will offer as soon as they have been satisfactorily tested and we have stocks sufficient to offer.

In making up this list we have cut the descriptions as short as possible to conserve space and aid in the war effort to save paper. When you buy Iris here we are passing this saving on to you.

COLLECTIONS. Many of our customers have bought special collections from us in the past at a special price. We have no special collections made up for this year, except the collection of Fall Bloomers. This is to save you from duplicating varieties you might already have. But to help you get a collection of your own choice you may select Iris to the value of \$5.00 and we will make the price \$4.00 prepaid to anywhere in the U. S. On any amount over \$5.00 you may take 20% discount from the total amount of the order. This discount does not apply to the \$2.00 collection of Fall Bloomers. War Savings Stamps will be accepted same as cash. With every order over \$5.00 we will give you extra a plant of some new fine variety, our selection, free. You might tell us what color you prefer. Every plant will be labeled with wood label wired on. You can attach this label to a wood or wire stake and you will have a permanent record of each one. No order accepted under \$2.00. Iris lovers are always welcome visitors to our gardens. We want to help you in every way possible.
